Aakanksh Yalamarthy

Software Engineer | Experience Technology at Publicis Sapient
Greater Toronto Area, Canada

Summary

Hi, I am Aakanksh Yalamarthy, a.k.a. AY. I have pursued my
Master's degree at the University of Western Ontario and I am
currently based out of Toronto. I am a technology enthusiast and my
core aptitude lies in software development and product design. I do
photography and graphic designing as a hobby, passionate about
making design functional and minimalist in nature. My mission is to
solve real world problems through empowering technology. Not here
to survive but here to thrive!

Web Development: HTML, CSS, JavaScript, PHP, Bootstrap
Frameworks: Node.js, React.js, Express.js
Languages: Java, C, C++, Python
Applications: Eclipse, NetBeans, Atom, Microsoft Office
Database Languages: MySQL, MongoDB
Libraries/APIs: JSON, jQuery, WebAPI, RESTful API
Tools: MYSQL Workbench, Github, Atom
Paradigms: Scrum, Waterfall, Web App Development, Agile
Platforms: Windows, Mac

Experience

Publicis Sapient
Software Engineer, Experience Technology
September 2018 - Present (2 years 5 months)
Toronto, Canada Area

• Worked closely with Shaw to develop their web application based on react,
redux and next js hosted on AWS.

• Worked with KPMG as a tech lead, developed the global review 2018
website which was based on modern Javascript frameworks and front end
technologies.

• Worked with Fiat Chrysler automobiles (FCA) to build complicated cross
brand React components, also drove the "testing as a culture" initiative in the
team.

Intuit
Full Stack Developer
July 2017 - May 2018 (11 months)
Toronto, Canada Area

• A full stack developer on the product development team working on the Turbotax web product.

• Worked on the backend business logic which was primarily in Java, Spring and Hibernate.

• Built some front end features for the 2017 product which comprised of React, Javascript & jQuery.

ActiveNet Pvt. Ltd.
Full Stack Developer
June 2014 - June 2015 (1 year 1 month)
Hyderabad, India

• As a full stack developer, supported and developed a Human Resources Management System project.

• Developed the front end of the web app using web technologies, bootstrap framework and javascript frameworks such as React.

• Involved in designing the backend, integrated the application with MySQL database and Hibernate ORM framework.

Greatideas Co
Head - Software Development, UI/UX
December 2013 - May 2014 (6 months)
India

• Great ideas co. helped to take small and medium enterprises online by providing them with a out of the box, turn-key e-commerce shop to showcase their products and services, improving exposure and boosting their sales.

• Guided the team development efforts towards successful project delivery, provided technical leadership to teammates.

• Assisted development of a web app which provides the vendor with e-commerce and data analytics solutions. Translated ideas and concepts into wireframes and mockups by applying a user-centered design approach.

• Modelled and developed the page structure, formulated the web functionality and feature development with other team members.

AY ventures
Founder
January 2011 - May 2014 (3 years 5 months)
India

• AY Ventures was my first entrepreneurial venture and my goal was to help scale innovative companies and start ups.

• Provided services and solutions catered to various industries such as F&B, healthcare and software.

• Participated in building web apps, mobile apps, product/business strategies and branding/marketing strategies and providing these solutions and services in order to help the company scale.
